§1.98

Sir:

The references cited on attached forms PTO/SB/08A and PTO/SB/08B are being called to the attention of the Examiner. Copies of the references are enclosed.

It is respectfully requested that the cited references be expressly considered during the prosecution of this application, and the references be made of record therein and appear among the "references cited" on any patent to issue therefrom.

Under the U. S. Patent and Trademark Office's 21<sup>st</sup> Century Strategic Plan, copies of patent application claims do not have to be supplied with an Information Disclosure Statement ("IDS") if the patent application has been entered into the Image File Wrapper ("IFW") system. See 69 FR 56481 (September 21, 2004). Applicants nevertheless, for the convenience of the

Examiner, attach pending claims of several pending patent applications that have been entered into the IFW.

As provided for by 37 CFR §1.97(h), no inference should be made that the information and references cited are material to patentability. Also, no inference should be made that a reference is prior art merely because it is included in this statement. Under 37 CFR §1.97(g), the submission of an information disclosure statement should not be considered as representation that a search has been made.

The Commissioner is hereby authorized to charge any additional fees associated with this communication or credit any overpayment to Deposit Account No. 50-0289

Respectfully submitted,
